

The information on this Citizens Database is a community effort intended to provide general information to the public about Covid-19 Vaccine related deaths in New Zealand. Although care has been taken to ensure the quality and accuracy of the information the authors make no warranty, express or implied, nor assume any liability or responsibility for the accuracy, completeness, or use of any information on the database. Given the sensitive and controversial nature of vaccine injury and death in New Zealand it may not have been possible for the authors to confirm the circumstances of death with an immediate family member of the deceased. Information is provided on the basis that all persons accessing the Citizens Database undertake responsibility for assessing the relevance and accuracy of its content. The Citizens Database may be changed, deleted, added to, or otherwise amended without notice. If you find any information on the database that you believe may be inaccurate, please email: thecitizensdatabase@gmail.com
